About AlmaBetter

AlmaBetter is India's premier upskilling and higher education platform for niche tech careers such as data science and software engineering. Our programs are outcome-oriented and are designed and delivered by top industry professionals. We provide 360° career support for all our learners.

A message from our CEO

Welcome to AlmaBetter, India's premier upskilling and higher education platform for niche tech careers. As the CEO, it is my pleasure to introduce you to a transformative learning experience that will shape your future in the world of data science and software engineering.

At AlmaBetter, we believe in the power of knowledge and the limitless possibilities it brings. We are committed to providing you with a comprehensive and outcome-oriented curriculum, meticulously crafted by top industry leaders.

What sets AlmaBetter apart is our unwavering dedication to your success. We go beyond traditional education by offering 360° career support. From resume building and interview preparation to mentorship and networking opportunities, we are with you at every step.

As you embark on your journey with AlmaBetter, you will find yourself immersed in a vibrant and collaborative learning environment. Through practical projects, you will develop a strong portfolio that showcases your abilities to potential employers.

Moreover, we understand that learning is a lifelong process. Our commitment to your growth extends beyond the completion of your program. As part of our alumni network, you will continue to receive support and access to exclusive job opportunities.

Join us and unlock your true potential as we embark on a journey of innovation and professional growth together. I invite you to take the first step towards a rewarding future. Join AlmaBetter and witness the transformation that comes with dedication, passion, and an unwavering commitment to excellence.

Warm regards,

Shivam Dutta
Co-founder & CEO

AlmaBetter

Industry Insights

The shortage of available Data Scientists is just as real as any other supply chain challenge. It's a simple issue of supply and demand. Supply is scant because of the relative newness of the profession itself. There are no 30-year professionals in the Data Science field today; even someone with 10 years of experience is almost unheard of.

"Data Scientist" has been described as "the sexiest job of the 21st century" by Harvard Business Review. On the other hand, US Bureau of Labor Statistics and the World Economic Forum have predicted that 11.5 million Data Science jobs will be created globally by 2026. Yet, with no practical knowledge of this relatively new field, about 80% of professionals struggle when it comes to working with real-world datasets.

This is where AlmaBetter comes into play, by bridging the gap between skilled candidates and Data Science job openings, and preparing learners for the tech world.

About the Program

AlmaBetter's Masters Degree in CS: Data Science & Al is designed to prepare you for a high-growth career in the field of Data Science and Artificial Intelligence. The credits for this degree will be provided based on European Credit Transfer and Accumulation System (ECTS) which is recognized by 60+ countries. ECE recognizes this degree as equivalent to an MS from any US Institution.

***** Key Features:

- India's first Masters Degree with Assured Placement Services
- Globally recognized and equivalent to an MS from any US institution
- No prior Computer Science degree required
- Immigration opportunities in US, Canada, and Europe
- Curriculum re-engineered for post-ChatGPT era

Eligibility:

- A Bachelors Degree in any discipline (Tech or Non-tech)
- A knack for learning and a never-give-up attitude

Fees:

The total fee for this program is divided in 2 parts

- Tuition fee: INR 1,80,000 payable at the time of admission (EMIs starting at INR 5,000)
- Career Services Fee: The fee for AlmaX Career Services Program is based on a Pay After Placement Model. You have to sign an Income Share Agreement (ISA). ISA is a legal agreement between you and AlmaBetter where you promise to pay us a part of your salary only when you get placed above the minimum threshold salary. If a student gets a job of 5 LPA or above, then the student has to pay a fee of INR 2 Lakhs in 20 EMIs of INR 10,000 each.

Duration:

The total duration of this program is 15 months.

AlmaBetter Innovarsity x Woolf University

Our Masters Degree in CS: Data Science & Al is being offered in partnership with Woolf University, an ECTS-accredited, global education-provider.

\uparrow

Exclusive Features

- Learn from instructors from the world's leading universities and companies
- ECTS is the largest and most sophisticated accreditation system in the world
- Globally-recognized and transferable credits open doors for international opportunities
- Access to exclusive AlmaBetter x Woolf University high-quality learning material

Who is it for?

- Individuals with a Bachelors Degree and a keen interest in learning Data Science
- IT professionals looking for a career transition as Data Science professionals
- People from the non-tech domain looking to transition into the Data Science industry
- Individuals looking for a globally-recognized degree in Data Science
- Individuals looking for a Masters program offered at flexible pricing
- Individuals looking for immigration opportunities in US, Canada & Europe

Why choose us?

Intensive curriculum covering basic to advanced concepts

Our curriculum imparts practical knowledge and prepares students for the tech industry. It covers everything from the basics to advanced Data Science concepts.

10+ capstone projects and 1:1 Mentorship Sessions

We push our learners to work on multiple real-world projects to earn practical knowledge. Students can interact with experts and gain industry insights through the 1:1 Mentorship sessions.

Mentors from MAANG and international universities

AlmaBetter mentors are industry professionals with years of experience working in MAANG companies and international universities.

Assured Placement Services

We believe in our curriculum and network of hiring partners; hence, our program is India's first Master's Degree offering Assured Placement Services with a Pay After Placement Model

Globally-recognized ECTS-accredited Masters Degree

This globally-recognized 15-month program (90 ECTS credits) will elevate your profile with a Masters Degree. ECE recognizes this degree as equivalent to an MS from any US Institution.

Curriculum Outline

1. Foundation Track

30 ECTS credits

6 months

Learn all the skills required to kickstart your career in the Data Science industry. Future-proof your career in the post-ChatGPT era.

Modules	ChatGPT and Al Tools	re-engineered for post ChatGPT
Introduction to Computer Programming	Pair Programming using ChatGP	era
Numerical Programming in Python	Data Wrangling using Pandas Al	
Relational Databases	ChatGPT for writing SQL queries	
Data Visualization Tools	Creating presentations using ChatGPT	
Applied Statistics	Equations simplified via ChatGPT	
Introduction to Machine Learning	Use AI to create AI	

2. Specialisation Track

30 ECTS credits

6 months

Specialize in any one of these two fields to gain a professional edge in the fast-paced Data Science and Artificial Intelligence industry.

Specialization 1: Data Science and Data Analytics	Specialization 2 : Artificial Intelligence & Machine Learning
Mathematics for Computer Science	Mathematics for Computer Science
Advanced Machine Learning	Advanced Machine Learning
Introduction to Deep Learning	Introduction to Deep Learning
Product Analytics	Deep Learning for Computer Vision
Business Case Studies	Deep Learning for NLP
Productionization of ML Systems	Productionization of ML Systems
Distributed Machine Learning	Distributed Machine Learning

Tools you will learn

Specialization 1 : Data Science and Data Analytics		the state of the s	
Python	Pandas	Python	Pandas
NumPy	Matplotlib	NumPy	Matplotlib
SQL	Seaborn	SQL	Seaborn
Scikit-learn	Plotly	Scikit-learn	Plotly
Apache Spark	Tableau	Apache Spark	Tableau
Docker	Excel	Hive	Excel
Kubernetes	Hive	MLOps	Neural Networks
TensorFlow	Apache Airflow	Apache Airflow	Deep Learning
PyTorch	Google Cloud Al	TensorFlow	Computer Vision
Ensemble Methods	Platform	PyTorch	Fundamentals
Gradient Boosting	Microsoft Azure	Ensemble Methods	Convolutional Neural
		Gradient Boosting	Networks (CNN)

3. Industry Immersion Track

30 ECTS credits

3 months

Work on an extensive thesis project in a specific domain, under the supervision of an experienced industry mentor as your thesis guide, and present it to the academic team.

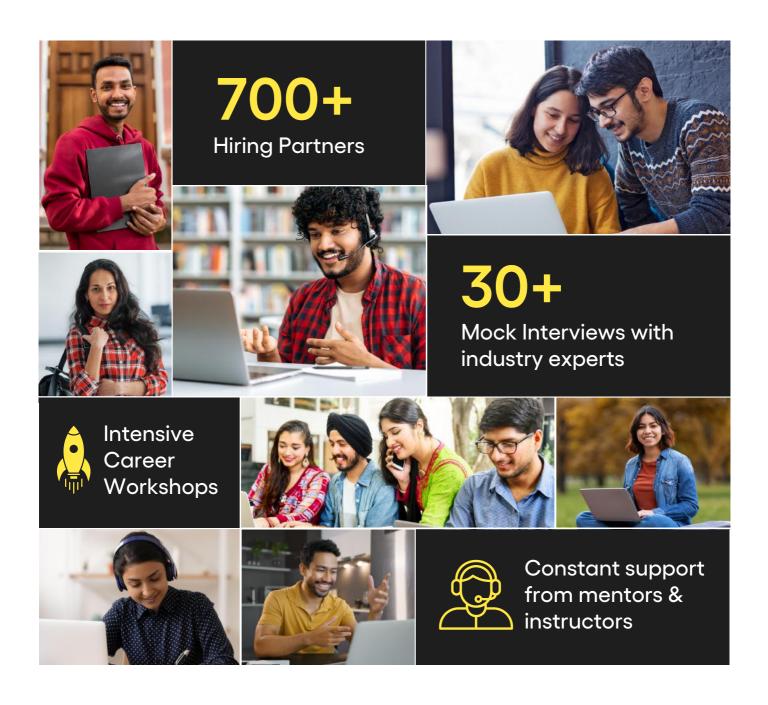

Indsutries	Thesis Project
Fintech & BFSI	Domain & Scope
Healthcare	Industry Mentor Allotment
E-commerce	Literature Review
Consumer Internet	Data Preparation
Logistics	Model Development
IT Services	Model Evaluation
Telecommunications	Productionization & Testing
and 5+ other industries	Thesis Presentation & Evaluation

AlmaBetter Career Services - AlmaX

The **Assured Placement Service** is supported by our network of 700+ hiring partners and industry experts with 25+ years of experience. At the epicenter of this program lie 30+ one-on-one mock interview sessions along with actionable feedback from experts.

Students are assigned Dedicated Career Coaches who guide them throughout the entire job-hunt journey, starting from creating effective resumes to building impressive portfolios for a successful career graph.

AlmaBetter Career Services - AlmaX

Eligibility of AlmaX

Learner must complete Foundation Track and pass AB-CAT to be eligible for AlmaX admissions

Curriculum of AlmaX

Business Communication

Learners will master grammar, body language and modals, become familiar with the 7Cs of business communication, ace business presentations, emails, telephonic communication, and vocabulary, and build networking and interpersonal skills.

Profile & Resume Building

Learners are guided by experts through the process of building highly optimized resumes, letters, their LinkedIn profile, GitHub portfolio, and even their very own website.

Interview Prep & Mock Interviews

With the Interview Prep and Mock Interviews module, learners will be trained on best interview practices and acquire access to 10+ Mock Coding, Analytics, and Communication Interviews, as well as company-wise Interview Guides.

Coding and Technical Revision

Under this module, learners will acquire industry-relevant experience by working on 20+ coding challenges, 50+ assignments, and 1 project each in the domain of Python, Data Analytics, and ML Modelling.

Project Portfolio

Choose from 30+ experts-approved Data Science projects to gain experiential learning.

And more...

Master all the tools required for a thriving Data Science career

Learn from the BEST

Our arsenal of instructors, who have an average of 7+ years of industry experience with top tech firms and at least 5+ years of teaching experience, will help you master Data Science while preparing you for the real-world.
